

Clinical Quality Registries Workshop 2025

26 May – 28 May 2025 • Aalborg University CREATE, Rendsburggade 14, 9000 Aalborg

Please share with your
colleagues and contacts

Are you involved in clinical quality improvement and clinical quality registries?

- Then use this opportunity to update and expand your knowledge about quality improvement using clinical quality registries and interact with international colleagues while enjoying cultural experiences in Aalborg and the beautiful surroundings in Northern Jutland.

On behalf of the Danish Centre for Health Services Research – Aalborg University, the Danish Healthcare Quality Institute and the Danish Society for Quality in Health Sectors, we are delighted to announce that the annual Clinical Quality Registries Workshop will take place 26-28 May 2025.

The organisers and faculty are senior experts on their topics with extensive experience. They will – in interaction with the participants - provide a comprehensive and practically oriented take and new perspectives on the central themes within clinical quality improvement based on clinical quality registries.

The workshop will be a combination of lectures and interactive workshops. You are expected to play an active part and contribute to the workshop. In the workshop we are all both teachers and students.

Organisers and faculty (to be confirmed): Henrik Møller (DK), Søren Paaske Johnsen (DK), Kathrine Hald (DK), Gunilla Jacobsson Ekman (SWE), Eva Stensland (NOR), Alexander Katalinic (GER) and Jens Winther Jensen (DK).

Course content

Quality indicators and development targets

Evaluation of clinical care

Analysis of real world data

Low value care

And more.....

The registration fee is 200 euro. Express your interest in participation as soon as possible and no later than **1 April 2025** via email kathrinehald@dcm.aau.dk

The maximum capacity is 30 participants.
